

ELITE FIT EMS

FEEL THE POWER. SEE THE CHANGE.

Enterprise Integration Opportunity

THE CHALLENGE

Underused Space Is Lost Revenue

Across the wellness sector, valuable space often sits underperforming.

- Spare treatment rooms
- Low-utilisation gym areas
- Empty studio time blocks
- Underperforming PT zones

Square footage that does not generate premium revenue becomes a liability.

The question is simple:

What if that space could generate recurring, high-margin income?

THE SOLUTION

A High-Yield Performance Addition

Elite Fit EMS integrates seamlessly into existing:

- Gyms
- Boutique fitness studios
- Wellness hubs
- Physiotherapy clinics
- Hotels
- Corporate wellness facilities

In as little as 800 sq ft — or a converted spare room — you can introduce a technology-led, premium training service.

No major expansion.
No excessive footprint.
No operational overhaul.

Just intelligent integration.

WHY EMS?

20 Minutes. Premium Pricing.

Electrical Muscle Stimulation training offers:

- Full-body activation in 20 minutes
- Joint-friendly performance training
- Personalised intensity control
- Measurable progression

Clients are willing to pay premium rates for:

- Efficiency
- Results
- Technology
- Exclusivity

EMS creates a high-value offering that differentiates your business immediately.

THE COMMERCIAL ADVANTAGE

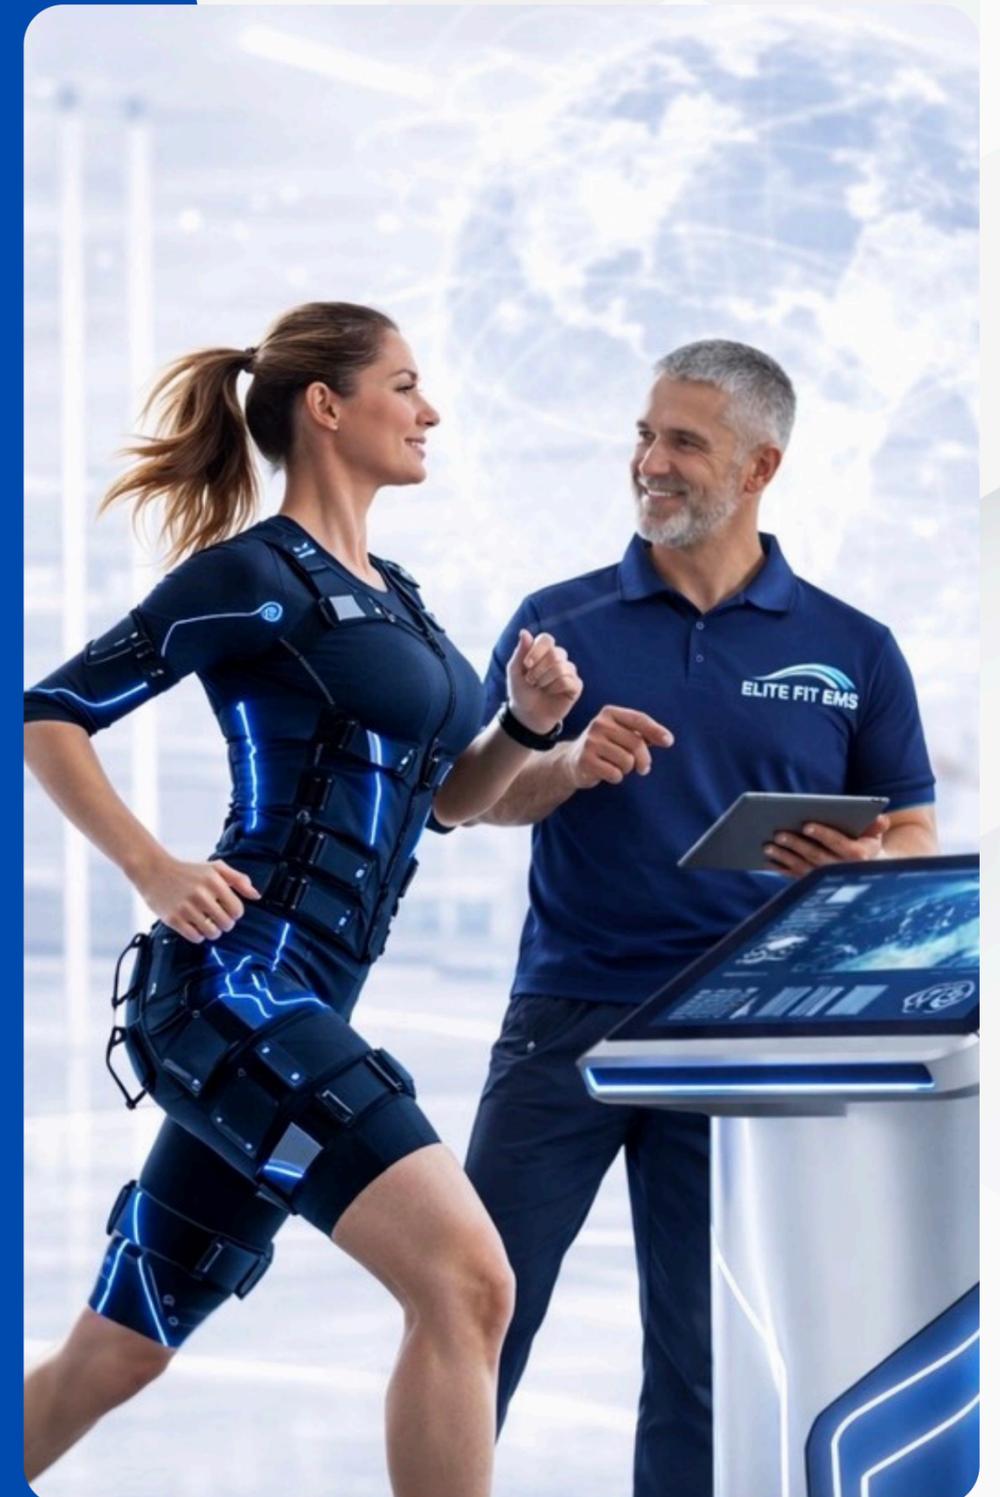

Increase Revenue Per Square Metre

Elite Fit EMS allows you to:

- Monetise underperforming space
- Add a recurring subscription revenue stream
- Upsell existing members
- Attract a higher-value client demographic
- Increase overall brand positioning

Rather than discounting memberships or chasing volume, EMS enables premium positioning.

Small footprint.
High yield.

OPERATIONAL SIMPLICITY

Designed for Integration

The Enterprise model is structured for minimal disruption.

You receive:

- EMS equipment suite
- Operational training
- Integration support
- Marketing framework
- Structured programming systems

It can operate:

- As a branded Elite Fit zone
- As a co-branded addition
- As a premium upgrade tier

You retain control of your facility while elevating its earning potential.

The Platform

TECHNOLOGY. CONTROL. SUCCESS.

IDEAL PARTNER PROFILE

Built for Established Operators

The Enterprise Integration model is ideal for:

- Gym owners seeking differentiation
- Boutique studios expanding services
- Wellness hubs increasing yield
- Clinics adding performance services
- Hotels upgrading fitness amenities

If you already operate successfully, this model amplifies what you've built

FINANCIAL STRUCTURE

Structured & Scalable

Investment includes:

- EMS equipment package
- Integration setup
- Staff training
- Brand licensing
- System access

The model is designed to:

- Scale gradually
- Utilise existing staff where possible
- Integrate into current scheduling
- Deliver fast revenue activation

Full financial outline provided following initial discussion.

THANK YOU

Add Convert space into performance revenue

Elite Fit EMS enables you to transform underutilised square footage into a high-performance, high-margin revenue engine.

No expansion required.
No reinvention needed.
Just intelligent enhancement.
